

Innovative Solutions for Battery Powered Vehicles and Boats

KOP21

Three Phase Power Battery Charger

MAIN FEATURES

- Programmable for lithium batteries
- Compact design
- Very high efficiency
- Fully automatic operation
- Simple to use and program
- Battery monitor and Ah counter
- Galvanic isolation of input and output
- Parallel connection of up to 6 power units
- Control unit with a graphical display
- Graphical display for programming and monitoring

TECHNICAL CHARACTERISTICS

■ Min. output voltage	200 V
■ Max. output voltage	750 V
■ Nominal output current	61 A
■ Efficiency	96 %
■ Max. input current	16 A
■ Input voltage	230 V AC \pm 15 % / 45–65 Hz
■ Dimensions (L x W x H)	600 x 270 x 90 mm
■ Weight	14.3 kg

The desired performance features are binding only then if they were expressly agreed by contract.
